

Antimicrobial Scales

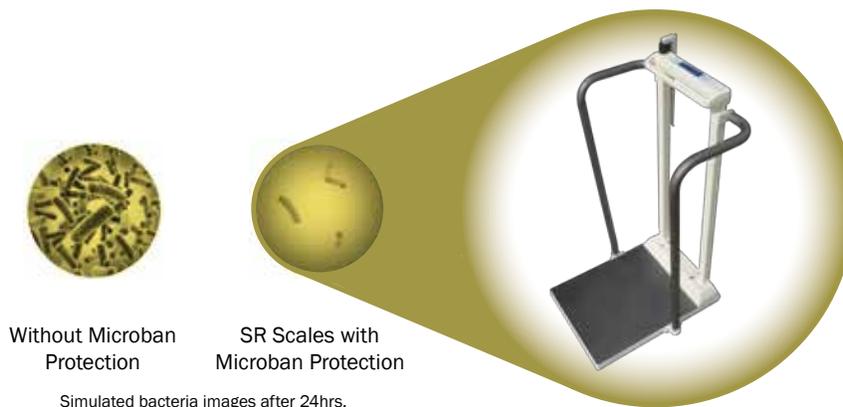

Featuring Microban[®] protection

Microban[®] antimicrobial technology is now an exclusive feature on SR Scales' line-up of stand-on, wheelchair, and wall mount scales. Microban[®] antimicrobial protection has been added as a proactive approach to help reduce the growth of bacteria on the scales as part of a medical center's approach to creating a cleaner healthcare environment.

Microban International, Ltd is a global leader in antimicrobial technologies. The company's products have undergone extensive independent laboratory testing and have a long history of safe, effective use. Microban technology is registered with the EPA and regulatory agencies around the world. For more information, visit <https://www.microban.com/sr-scales>

| Feature | Benefit |
|---|--|
| <ul style="list-style-type: none"> Microban SilverShield[®] embedded antimicrobial technology | <ul style="list-style-type: none"> Helps reduce the growth of bacteria on the scales. |
| <ul style="list-style-type: none"> 24/7 protection | <ul style="list-style-type: none"> Continuous, active antimicrobial protection for the life of your scales. Microban SilverShield reacts up to eight times faster than other silver antimicrobials. |
| <ul style="list-style-type: none"> Microban infused protection on high touch surfaces | <ul style="list-style-type: none"> Antimicrobial protection on scale surfaces: platform, handrails, display housing, keypad, stanchions, and visible labeling. |
| <ul style="list-style-type: none"> Multi-product line coverage | <ul style="list-style-type: none"> Provides antimicrobial protection on all new SR Scales throughout your facilities. |
